

1. USE / APPLICATION

The joiner is used to connect standard 300 mm straight ducting with itself or any of the other 300 mm components; with which it provides a smooth & strong joint. Typical other fittings are horizontal or vertical elbows, cross connectors, tees, etc., which require a standard joiner at each interface. The joiner is supplied with 2 x M10 cage nuts that allow for a quick connection to a duct mounting bracket.

Note: A 300 mm slotless joiner is also available (Part No: TC1279-287A).

2. BENEFITS & FEATURES

- Tough, fire retardant material
- Supplied as a single moulded item, as a complete joiner
- Comes with 2 x M10 cage nuts for connection to a duct mounting bracket
- Clips straight into standard 300 mm parts
- Purchase by the unit

3. TECHNICAL ATTRIBUTES

Dimensions	50 mm (W) x 113 mm (H) x 330 mm (D)
Weight	142 grams (with cage nuts)
Materials	Fire retardant plastic, Halogen free, UL94-VO rated
